EX167AF

HALBERTON VILLAGE HALL

Contractors - Fire Safety

Charities Number: 300845

Background:

Contractors commonly cause fires, particularly while carrying out “hot work” involving use of blow lamps, work on flat roofs, etc. It is therefore necessary to ensure that contractors are competent and qualified in the particular specialism for which the Trustees have chosen them.

Policy:

The Trustee(s) overseeing the chosen contractor work wherever possible will ensure the contractor follows the hall's Health & Safety guidance and is aware of our Fire Safety policy especially in terms of fire escape points. Additionally, Trustee(s) should arrange to conduct a post work inspection of the work area to ensure all works have been completed satisfactorily and safely, with no residual hazards present that could compromise the fire safety of the hall.

Reviewed August 2025

Halberton Village Hall Trustees have discussed and agreed the above policy.
